INTRODUCTION:

Shah-USA is a diversified firm based in Chicago. The diversification or operation, in broad terms, is divided into two categories, BUSINESS SERVICES and PRODUCTS DISTRIBUTION / SUPPLIES.

In the BUSINESS SERVICES area, **Shah-USA** operates with a flexible staffing policy and sources the staff per the need of clients on a contract or project basis. This enables our firm to offer our clients assistance in achieving their goals with a specialized team, which is more efficient and effective. This also allows us to operate economically, which ultimately benefits our clients. Some of the areas of **Shah-USA's** business services includes consulting, contracting, investment, accounting, computer related projects, project management, auditing, tax, recruitment, analysis, and research.

In the PRODUCT DISTRIBUTION / SUPPLIES area, **Shah-USA** operates with zero inventory and "just in time" strategies. We rise to the challenge of procuring any product our clients may need. Because of our expertise in sourcing we understand that storage of inventory and its maintenance is a major cost to clients and even the major distributors / supplier. Through our methodical arrangements, we save money and resources, and we strive to pass that benefit to our clients. We also participate in our clients' procurements analysis, to see if any alternative way of sourcing is available to save cost, get better quality products, and also eliminate the risk of change in fashion/ test. One of the product distribution / supplies specialty of **Shah-USA** is Hi-Tech products such as hardware, software, supplies etc. For more information, please click on the Products page.

Shah-USA provides services to individuals, small to medium size businesses, corporations, Governments, and other entities. Our services are dependable, deadline oriented and affordable. **Shah-USA** can handle the needs of any type of individual or business. Our experience makes it easy to set up the process for new entities and allows easy transition into becoming an established entity.

Fees at Shah-USA are affordable, which means you do not have to worry about keeping a space for the employees, there is no supervision required, no cost of recruitment, insurance or other overheads. Additionally, you do not have to recruit a full time employee for your continuous but limited needs each day, week or all around the year.
